❖ Mechanism of internal/ external assessment

For internal examinations

At the start of the academic year, the academic monitoring committee prepares a tentative academic calendar, mentioning Internal examination duration. Based on the academic calendar, internal examination committee prepares a timetable for internal examinations and display it on the notice board one week before the start of the examination.

- The Examination schedule is communicated to staff through notices.
- The invigilation duties have been allotted to concerned subject teacher.
- The respective subject in charge submits printed question papers in sealed envelope to the examination department two day before the commencement of examination.
- Answer sheets and question papers are handover to respective invigilator per the schedule.
- After examination, answer sheets are submitted in examination control room.
- The individual subject teacher then collects the answer sheets for evaluation.
- The internal squad and invigilator maintain strict vigilance during the examinations to avoid any malpractice by the students.
- The exam classrooms are under CCTV surveillance.

For University examinations

- University publishes the timetable on university website and college Exam committee displays it on the notice board for information to students and staff.
- Principal appoints Chief Superintendent (CS) and Assistant Chief Superintendent and other supporting staff for the examination as per the university guidelines.
- Confidential invigilation schedule is prepared for theory examination and invigilation appointment order is communicated to staff manually.
- Sometimes Joint Chief Superintendent (JCS) is appointed for theory examination by university for smooth, efficient, transparent conduct of examinations.
