ENVIRONMENT & ENERGY USAGE POLICY

1. INTRODUCTION:

At Nanded Pharmacy College, we recognize the importance of environmental sustainability and the responsible use of energy resources. As an educational institution, we have a responsibility to promote environmental awareness, conserve energy, and minimize our ecological footprint. This policy aims to guide our college community, including staff, students, and visitors, in adopting sustainable practices and contributing to a greener and more sustainable future.

2. SIGNIFICANCE OF PROPER USAGE OF ENVIRONMENT & ENERGY:

The proper usage of the environment and energy resources holds significant importance for several reasons:

i. Environmental Conservation: Proper usage of the environment helps preserve natural resources, protects biodiversity, and maintains ecosystem balance. It ensures the sustainability of ecosystems, which are essential for clean air, water, and soil, as well as the overall health and well-being of all living organisms.

ii. Climate Change Mitigation: Sustainable energy usage plays a crucial role in mitigating climate change. By reducing greenhouse gas emissions and transitioning to renewable energy sources, we can minimize the negative impacts of climate change, such as rising temperatures, extreme weather events, and sea-level rise.

iii. Resource Efficiency: Efficient energy and resource usage contribute to resource conservation and minimize waste generation. By adopting energy-efficient technologies and practices, we can reduce our dependence on fossil fuels, optimize resource utilization, and minimize environmental pollution.

iv. Economic Benefits: Proper usage of environment and energy resources can have significant economic benefits. Energy-efficient practices reduce energy consumption and lower utility costs for individuals, organizations, and governments.

v. Health and Well-being: A clean and sustainable environment directly affects human health and well-being. By reducing pollution and exposure to harmful substances, proper environmental and energy usage promotes a healthier living and working environment. It can help prevent respiratory illnesses, improve air and water quality, and enhance overall quality of life.

vi. Long-Term Sustainability: The responsible usage of environment and energy resources is crucial for long-term sustainability. By conserving resources, reducing waste, and embracing renewable energy sources, we can ensure the availability of these resources for future generations.

vii. Global Responsibility: Proper usage of environment and energy is a global responsibility. As individuals, organizations, and societies, we have a duty to protect the environment and use energy resources efficiently to preserve the planet for future generations. Taking collective action towards sustainability can contribute to global efforts in addressing climate change, reducing environmental degradation, and achieving sustainable development goals.

3. OBJECTIVES:

i. Environmental Awareness and Education:

- Promote environmental awareness and education among staff, students, and visitors through workshops, seminars, and awareness campaigns.
- Incorporate environmental topics into the curriculum to educate students about sustainability, conservation, and renewable energy.

ii. Energy Conservation:

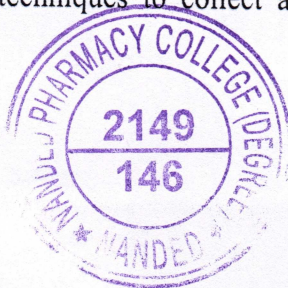

- Encourage energy-efficient practices such as turning off lights and electrical equipment when not in use.
- Install energy-efficient lighting systems, such as LED bulbs, throughout the campus.
- Implement energy-saving features, like sensor-base LED bulbs during night.

iii. Waste Management:

- Establish a comprehensive waste management system that includes recycling, composting, and proper disposal of waste.
- Install recycling bins in strategic locations across the campus and promote recycling practices.
- Encourage the reduction of paper usage by implementing digital alternatives and promoting double-sided printing.

iv. Water Conservation:

- Promote water conservation practices, such as fixing leaks promptly and installing water-efficient fixtures.
- Raise awareness about the importance of water conservation among students, staff, and visitors.
- Utilize rainwater harvesting techniques to collect and reuse rainwater for non-potable purposes.

v. Sustainable Transportation:

- a. Encourage the use of e-vehicles, public transportation, carpooling, and cycling among students and staff.
- b. Provide secure bicycle parking facilities and promote cycling as an eco-friendly mode of transportation.

vi. Green Spaces and Biodiversity:

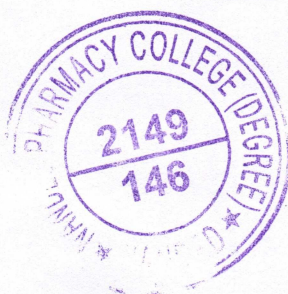

- a. Create and maintain green spaces on campus, including gardens and tree plantations.
- b. Promote biodiversity by preserving native vegetation and avoiding the use of harmful pesticides and herbicides.

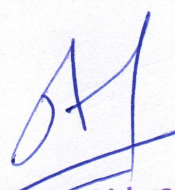

vii. Renewable Energy Sources:

- a. Explore the feasibility of implementing renewable energy sources, such as solar poles, to generate electricity on campus.
- b. Collaborate with relevant organizations or government agencies to secure funding and expertise for renewable energy projects.

viii. Monitoring and Reporting:

- a. Establish a monitoring system to track energy consumption, water usage, waste generation, and progress towards sustainability goals.
- b. Monitoring the college's environmental performance and progress made in achieving sustainability targets.

4. CAMPUS ENVIRONMENTAL & ENERGY MANAGEMENT TEAM:

- The institute has constituted following Campus Environmental & Energy Management Team.
- The Team is involved in setting objectives and making policies regarding Awareness for Environment Protection and Energy Conservation.

INTERNAL	EXTERNAL
Dr. M H Ghante Assoc. Professor, Head, Department of Pharmaceutical Chemistry, NPC, Nanded	Prof. Dr. N B Ghiware Principal, NPC, Nanded
Mr. A T Sharma Asst. Professor, Department of Pharmaceutics, NPC, Nanded	Mr. S B Dhoot Academic Associate, Head, Department of Pharmaceutics, NPC, Nanded

5. MAJOR ELEMENTS OF THE POLICY:

- Carrying out tree plantation on the college campus at specific intervals.
- Preserving and caring variety of plants and trees existing on the college campus which are a good source of oxygen and which aids in the greenery of the institute.
- Regular watering and proper management of plants and lawns and nourishment with organic fertilizers.
- Organizing and celebrating awareness programs like tree plantation campaigns, cleanliness campaigns etc., to encourage students, staff members and common people to maintain eco-friendly and clean environment.
- Advising and encouraging students and staff members to use electric vehicles or public transport to control pollution.
- Felicitation of the Chief Guests and Speakers of the programs organized in the college with small plants instead of bouquet and make them involved in the tree plantation activity in the institute.
- Organizing the Green & Clean Campus Campaign in the college as well as in the local region by the team of NSS volunteers.

- Participating in Clean and Green Environment and Plastic Free Environment Campaigns organized by external organizers like Nanded Ploggers.
- Insisting to make minimum use of papers for office purposes as by avoiding excessive use of printing and promoting paperless conversations.
- Supporting for compiling digital documents, using e-mails, using social networking sites like WhatsApp for everyday notices and communication.
- Prohibiting use of motor bikes with capacity above 350cc.
- Advising and instructing students and staff members not to carry or use any non-biodegradable materials, plastic bags, bottles and motivating for using cloth and paper bags and articles.
- Proper collection and disposal of degradable and non-biodegradable waste on the campus.
- Making proper arrangements for disposal of biowaste collected from different departments.
- Demonstrating design of small-scale biogas plant for energy production and energy conservation
- Implementing energy-efficient technologies, water conservation measures, waste management systems, and promoting recycling and composting initiatives.
- Reducing carbon emissions, conserving energy, minimizing waste generation.
- Providing opportunities for learning through sustainability-focused curricula, conducting or participating in workshops, seminars, and awareness campaigns.
- Using environment friendly materials, implementing energy-efficient systems, and utilizing renewable energy sources.
- Collaborative efforts for knowledge exchange and joint initiatives to address sustainability challenges.
- Adopting and implementing sustainable practices
- Advising students and staff members the importance of maintaining green and clean, plastic-free campus.
